History Tracking Module

Transactions & Master Activity Tracking Module

History Tracking Module

- Define Masters & Transactions required for History Tracking
- For defined Masters & Transactions, you will get an Icon in Control Bar for History Tracking
- When clicked on that Icon, you will get all the History for such Transaction or Master - Original Record as it is with User Name, Date & Time when it was Edited or Deleted
- Separate option to get a list of all Edited or Deleted Records, or particular record
- Allowing you to zoom-in to the Original Record, to compare it with the existing Record, or any other purpose
- All Edited/Deleted Masters/Transactions are saved in separate data files, so it does not make the existing data files bulky or slow or risky

Transactions & Master Activity Tracking Module

- Give Reason Type and Reason Details for every Master or Transaction Edit or Delete, etc.
- Take User Activity Tracking Report for any selected options as under
- Select Activity like Add, Edit, Delete, Print, Edit/Delete after Print, Reprint, etc, for Activity Tracking
- Select Reason Types & Users
